

February 26, 1974

is doubtful that the vote on indefinitely postponing this bill was a true indication of the committee's thinking on the need for reapportioning the Supreme Court Judicial District." Now that isn't a clear a statement as you can make without saying you are for the bill. I don't know the English language. There has been no one on the floor in this long debate this morning that has argued against the principle of the bill. There have been arguments against the politics surrounding the bill, the questions of whether the issue warrants the time that we might have to give it. But there has been no opposition to the substance of the bill itself. It would seem to me that that by itself speaks more eloquently than words of mine than anybody else in support of raising this measure.

PRESIDENT: The question is of advancing LB 1033 to General File notwithstanding the action of the committee which was to indefinitely postpone this bill. Those in favor of raising the bill, vote aye. Those opposed vote nay. Senator Cavanaugh for what purpose do you rise.

SENATOR CAVANAUGH: To request a record vote.

PRESIDENT: You are requesting a record vote. The Clerk will do that then. Later on when we finally get everybody voting. Has everyb ody voted? Have you all voted? Clerk will record.

CLERK: (Printed in Journal 815 on vote)  
Voting aye 17, 23 nays, 9 not voting.

PRESIDENT: The bill fails to be advanced. Are there any other motions to advance bills from committee? Senator Carpenter for what purpose do you rise?

SENATOR CARPENTER: Point of order. I'd like to move Mr. President, when we recess, we recess till 2:00, and we start on General File with non-controversial bills hopefully with LB 932. Now the budget committee is having a little bit difficulty to compromise, and I hope we can consider this process the rest of the week. I so move, Mr. President.

PRESIDENT: This can be a unanimous consent motion. Senator Carpenter is asking unanimous consent that we start with LB 932 this afternoon. With the same program that we had yesterday that any individual at anytime before we vote on the bill that can say that it is a controversial bill, and then it will be passed over. Anyone who wishes to object to that unanimous consent motion? If not, so ordered.

CLERK: Mr. President we have a

PRESIDENT: Senator Chambers.

SENATOR CHAMBERS: I'm not objecting to the motion, and I don't mind taking 932 and 933, but I'm opposed to the bills and if they want to accept starting with those bills this afternoon, I'm not opposed to that at all.

PRESIDENT: O.K. Any other motions to advance.

CLERK: Reference Committee reports and Notice of Committee hearings inserted in the Journal. Mr. President we have a motion here, I move that the Governor be requested to transfer Mr. Chizek back to the Labor Department rather than serve in his position of lobbying for the Governor's proposed legislation. In his place I suggest that he send in Mr. Whelan, his heir apparent, who is a self-appointed expert in the field of
